What about out-of-pocket costs?

We have smart solutions for those, too

Short Term Medical coverage helps you get the health care coverage you need, when you need it. But, like other insurance plans, there are always out-of-pocket costs. Out-of-pocket costs include expenses you are responsible for like deductibles and coinsurance.

Add one of our Supplemental Coverage plans to get the out-of-pocket protection you need from some costs not covered by your Short Term Medical plan. They’re affordable options that help you broaden your financial protection and keep more money in your pocket.

Get ahead of out-of-pocket costs with supplemental coverage for:

- Accidents
- Critical Illnesses
- Cancer and Heart/Stroke
- Hospital Stays

Ask your agent for more information.

How does Supplemental coverage protect you from out-of-pocket costs?

The average cost of a fractured hip is $12,923.¹ Now, let’s assume you chose to pair our Plan Enhancer supplemental coverage with a $5,000 benefit level with our $5,000 deductible Short Term Medical plan.

In this example, Plan Enhancer would pay 95% of your medical plan’s deductible.

This Short Term Medical plan is nonrenewable unless you purchased a Renewability Rider at the time you initially enrolled in your Short Term Medical plan. If you purchased the Renewability Rider, your plan will be renewable up to 36 months so long as you maintain compliance with the plan provisions. Availability of Renewability Riders varies by state. Termination of this plan is not considered a qualifying life event for the purposes of enrolling in an ACA-compliant major medical plan.
If you choose to purchase a new subsequent Short Term Medical plan, you must submit a new application. Any sickness or condition developed during a previous plan will be considered a pre-existing condition, regardless of whether the sickness or condition was covered under your previous plan, and will not be covered by subsequent Short Term Medical plans. Re-application may not be available in all states.

Be sure to check your policy carefully to make sure you are aware of any exclusions or limitations regarding coverage of pre-existing conditions or health benefits (such as hospitalization, emergency services, maternity care, preventive care, prescription drugs, and mental health and substance use disorder services). If this coverage expires or you lose eligibility for this coverage, you might have to wait until an open enrollment period to get other health insurance coverage.
